Informed Consent for Examination and Treatment

I (we) herby consent to the performance of examination and treatment on me or on _____, by the licensed doctors of chiropractic, medical doctors, and/or licensed physical therapists that may be employed by or engaged in practice in this clinic.

I have had an opportunity to discuss with the doctor(s) or other clinic personnel the nature and purpose of the different physical therapy procedures and chiropractic treatment (manipulation/adjustment). I understand that neither chiropractic nor medical treatment is an exact science and that my care may involve judgments to attempt to anticipate or explain risks and complications and an undesirable result does not necessarily indicate an error in judgment. No guarantee for results can be made or expected but rather I wish to rely on the doctor to choose and recommend a best course of treatment based upon facts known that is in my best interest.

I further understand that there are certain degrees of risk associated with chiropractic health care and physical therapy, which includes rarely, but not limited to fractures, disc injuries, strokes, and strain/sprains and am therefore willing to accept and consent to the risk associated with the care I am about to receive.

I have read, or the above information has been explained regarding consent. I have had an opportunity to ask questions about my examination and treatment. By signing below, I agree and intend this consent form to cover the procedures prescribed for my condition and for any future conditions for which I seek treatment.

Female Patients: By my signature on this form I do hereby state that to the best of my knowledge, I am not pregnant, nor is pregnancy suspected or confirmed at this particular time. Date of last menstrual period _____.

DISCLOSURE OF DOCTOR OWNERSHIP
NOTICE TO PATIENTS

Due to concerns that there may be a conflict of interest when a physician refers a patient to a health care facility in which the physician has a financial interest, New York State passed a law prohibiting the physician, with certain exceptions, from referring you for clinical laboratory, pharmacy or imaging services to a facility in which the physician or the physician's immediate family members have a financial interest. If any of the exceptions in the law apply, or if the physician is referring you for other than clinical laboratory, pharmacy, or imaging services, the physician can make the referral under one condition. The condition is that the physician disclose this financial interest and tell you about alternative places to obtain these services. This disclosure is intended to help you make a fully informed decision about your health care. *Public health law, §238 a (10).*

For more information about alternative facilities, please ask your physician, or the physician's staff. They will provide you with names and addresses of places best suited to your individual needs that are nearest to your home or place of work. You will not be treated differently by your physician if you choose to obtain health care services at another facility.
